Sprint Retrospective

At the end of each sprint, the team reflects on how well they worked together.

Goal: Improve your team's process moving forward.

Rule: Discuss process, not people.

Activity: Sprint 2 Retrospective

1. **Individually** complete questions 1–3 on the handout.
2. **Share** and **discuss** your answers with your team.
3. **As a team** commit to **one** process change for Sprint 3 (question 4).

Sprint 3

A Usable App

Bring the core functionality and the user interface together.

Activity: Sprint 3 Planning

Working with your team, plan sprint 3.

Suggestion: Focus on your team's **greatest source of uncertainty**. (For this sprint, this should probably be the integration of the core functionality to the user interface.)

Studio: Project

Use this time to work on sprint 2 or 3.

Today: Sprint 2 due

Next Thursday: Sprint 3 due
